

Oncology Navigation

The online referral form is the preferred method for referring patients to the providers listed below. You can access the form at onealcanceruab.org/new-patient-appointment-request/.

All new patient referrals for these providers are reviewed by the Oncology Navigation team, which receives them directly through the online form. Supporting records may either be uploaded with the form or faxed to 205-975-8083.

If faxing records, please include a cover sheet stating: "Referral submitted via online form. No additional steps are needed." Please note that referrals sent only by fax are not guaranteed to be received in a timely manner. Questions about the form or patients submitted through it can be directed to Tristan Wheeler (tristanwheeler@uabmc.edu or 205-934-1925).
